

Course Directive

IN721: Mobile Application Development

Semester One, 2020

Course Information

Credits: 15 Credits
Prerequisite: IN610: Programming 3
Timetable: Wednesday 1pm D105a & Friday 8am D105a

Lecturer

Name: Grayson Orr (Lecturer)
Location: D311
Email: grayson.orr@op.ac.nz

Course Dates

Term 1: 17 February - 10 April (8 weeks)
Mid Semester Break: 13 April - 24 April (2 weeks)
Term 2: 27 April - 19 June (8 weeks)
Good Friday: 13 April

Aims

To learn the specifics of mobile applications design and development. Students will be able to develop a mobile application and publish it to a mainstream app store.

Learning Outcomes

At the successful completion of this course, students will be able to:

1. Implement and deploy a complete, non-trivial, industry-standard mobile applications following sound architectural and code-quality standards.
2. Identify relevant use cases for a mobile computing scenario and incorporate them into an effective user experience design.
3. Follow industry-standard software engineering practice in the design of mobile applications.

Resources

Software

This paper will be taught using **Android Studio**. An installer for **Android Studio** is available. See <https://developer.android.com/studio>. Please refer any problems with downloads or installers to **Rob Broadley** in **D205a**.

Readings

There is no textbook for the course.

Provisional Schedule

Week	Date	Session 1	Session 2
1	17-02-2020	Activities & Intents	User Interface
2	24-02-2020	Touch & Input	Automation Testing
3	02-03-2020	RecyclerView	AsyncTask & Web Services
4	09-03-2020	Fragments	Alert Dialog
5	16-03-2020	Custom View	Web View
6	23-03-2020	Localisation & Accessibility	Google Play Console
7	30-03-2020	Assessment Work: Language Translator	
8	06-04-2020	Camera	File Reader
Mid Term Break			
9	27-04-2020	Shared Preferences	SQLite
10	04-05-2020	Authentication	Notifications
11	11-05-2020	Assessment Work: Wishlist	
12	18-05-2020	User Location	Firebase
13	25-05-2020	Third-Party Libraries	Connectivity
14	01-06-2020	Sensors	Audio & Video
15	08-06-2020	Canvas	Animations & Transitions
16	15-06-2020	Assessment Work: City Guide	

Assessments

Assessment	Weight	Due Date	Learning Outcomes
Practicals	20%	19-06-2020	2, 3
Language Translator	25%	03-04-2020	1, 2, 3
Wishlist	25%	15-05-2020	1, 2, 3
City Guide	30%	19-06-2020	1, 2, 3

Course Requirements and Expectations

Learning Hours

This course requires 150 hours of learning. This time includes 64 hours of timetabled class time, and 86 hours of self-directed reading, preparation and completion of assessment work.

Criteria for Passing

To pass this paper, you must achieve an overall average of 50%. There must be a genuine attempt at all assessments. There are no resits.

Attendance

- Students are expected to attend all classes, both lectures and labs.
- If you miss a class, you will need to get notes from another student.
- If you cannot attend for a few days for any reason, please contact your lecturer.
- You must turn up ready for assessments on the due date and at the correct time. No extra time will be scheduled. If you do not turn up, you have failed the assessment.

Communication

Microsoft Outlook and Teams are the official communication channels. It is your responsibility to regularly check Microsoft Outlook/Teams and [GitHub](#) for important course-related material, including changes to class scheduling or assessment details. Not checking will not be accepted as an excuse.

Snow Days/Polytechnic Closure

In the event the Polytechnic is closed or has a delayed opening because of snow or bad weather, you should not attempt to attend class if it is unsafe to do so. It is possible that your lecturer will not be able to attend either, so classes will not physically be meeting. However, this does not become a holiday. Rather, the material will be made available on [GitHub](#) for classes affected by the closure. You are responsible for any material presented in this manner. Information about closure will be posted on the Otago Polytechnic Facebook page <https://www.facebook.com/OtagoPoly/>.

Group Work and Originality

Students in the Bachelor of Information Technology degree are expected to hand in original work. Students are encouraged to discuss assessments with their fellow students, however, all assessments are to be completed as individual works unless group work is explicitly required (i.e. if it doesn't say it is group work then it is not group work – even if a group consultation was involved). Failure to submit your original work will be treated as plagiarism.

Referencing

Appropriate referencing is required for all work. Referencing standards will be specified by your lecturer.

Plagiarism

Plagiarism is submitting someone else's work as your own. Plagiarism offences are taken seriously and an assessment that has been plagiarised may be awarded a zero mark. A definition of plagiarism is in the Student Handbook, available online or at the school office.

Submission Requirements

All assessments are to be submitted by the time, date, and method given when the assessment is issued. Failure to meet all requirements may result in a penalty of up to 10% per day (including weekends).

Extensions

Extensions are only available for unusual circumstances. These must be applied for, and approved, before the submission deadline.

Impairment

In case of sickness contact your lecturer or BIT Team Leader (Michael Holtz) as soon as possible, preferably before the assessment or exam is due. The policy regarding the granting of a mark that considers impaired performance requires a medical certificate and a medical practitioner's signature on a form. You may refer to the guide on impaired performance on the student handbook.

Appeals

If you are concerned about any aspect of your assessment, please approach the lecturer in the first instance. We support an open-door policy and aim to resolve issues promptly. Further support is available from the BIT Team Leader (Michael Holtz) and Head of College (Richard Nyhof). Otago Polytechnic has a formal process for academic appeals if necessary.

Other Documents

Regulatory documents relating to this course can be found on the Polytechnic website.
